Hello, the task is: I have a multivendor store in Laravel (www.conshopy.com) I want to modify the header and the categories like this page (http://limmerz.limmexbd.com/) as well as it is distributed, the menu, the logo, the search bar, the categories with the icons, the login.
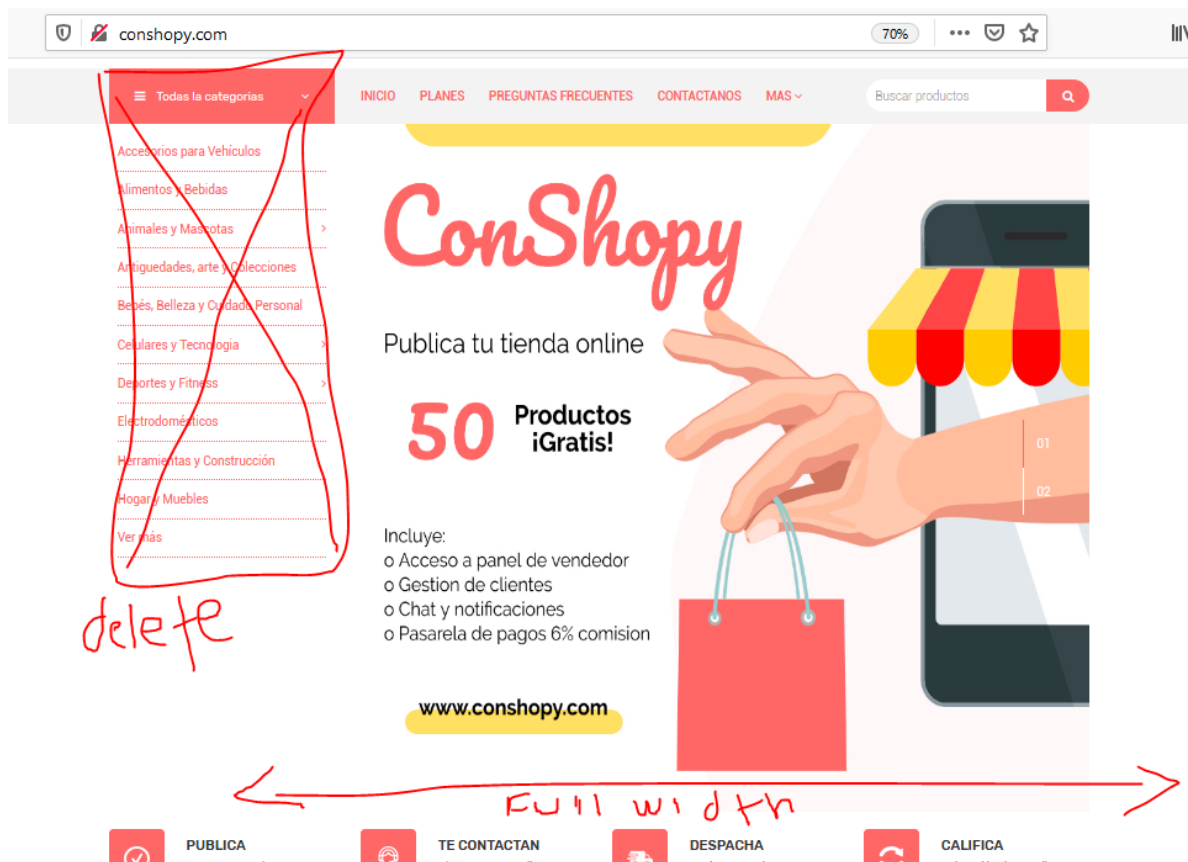

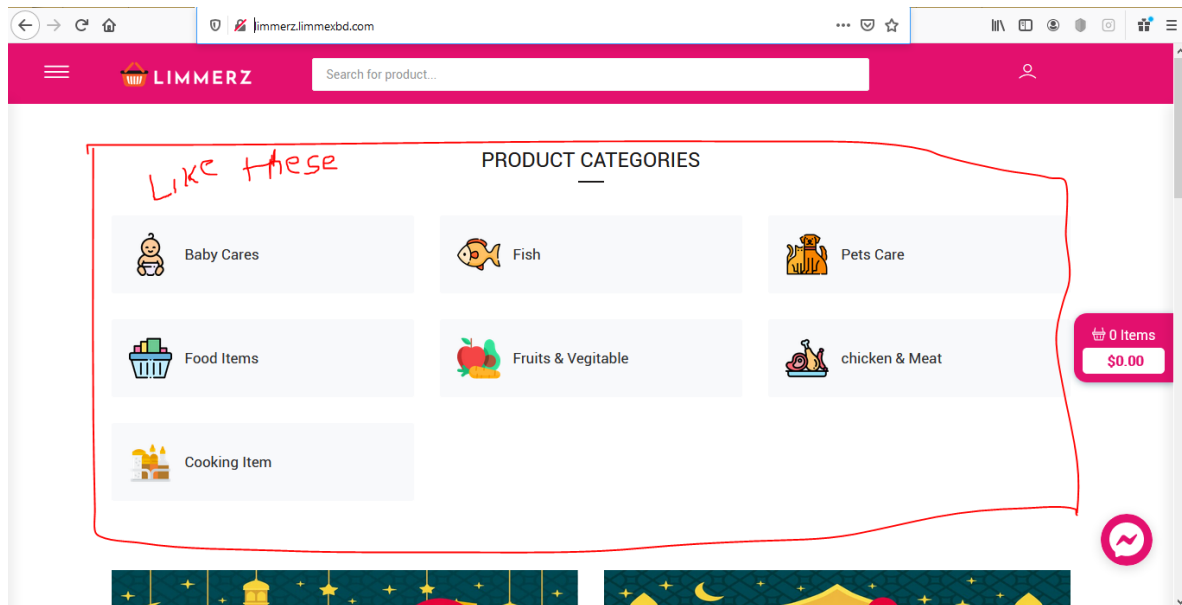

Change the header

The header like these

Change the categories

The categories like these

Note: In the administrator panel create the categories with the icon

url to login: http://conshopy.com/admin

email: admin@conshopy.com

pass: Admin123

Before start I need to know => How long would it take and how much would it cost?
